

Student-Lead Catalysis CDT Seminar

University of Bristol, Thursday the 15th of February, LT4

14:55 – 15:00 Opening Remarks

15:00 – 15:45 Professor Philip N Bartlett, **University of Southampton**

“Bioelectrocatalysis –attaching redox enzymes to electrode surfaces and driving redox enzyme reactions electrochemically”

15:45 – 16:00 Jifang Zhang, **University of Bath**

“WO₃ and haematite photoanodes for photoelectrochemical water splitting”

16:00 – 16:15 Coffee and biscuit break

16:15 – 17:00 Dr Ulrich Hintermair, **University of Bath**

“Online monitoring of a photocatalytic reaction by real-time high resolution FlowNMR spectroscopy”.

Organisers:

Paulina Genzels (pg15223@bristol.ac.uk), Gael Gobaille-Shaw (gg15274@bristol.ac.uk)
